LAMHE CHUNE MASTI BHARE

2019-2020

issue 1

Beginning of the journey

We narrate the beginning of our journey for the year 2019-2020. Our vision set with enthusiasm and will power to make the year an amazing journey.

Editor Note.....

HELLO LIONS!

It gives me immense pleasure to be the editor of the 1st issue of our Quarterly LCMB Magazine - **Lamhe Chune Masti Bhare!**

This year our **Club turns 60** So we have come up with a **New Logo**. It is a six pointed star which represents 6 decades as well as the various service activities, like Education, Medical help, Anaaj Daan, Community service, water conservation, environmental care etc, wherein our Club is involved in on a regular basis.

The **6 pointed star** is a special shape comprising of 2 triangles - one pointed up and the other down - locked in a harmonious embrace. They symbolize the human position between the earth and the sky. And in Lionism serving the Humanity with Nature is our main objective.

This issue is a compilation of a few of the best moments we have had together so far. This year, we plan to honor a Lion Star of the month. The stars for the months of July and August are covered in this issue. Other segments of this magazine include a brief insight on what it means to be a Lion. We also have a section dedicated to our Lion Cubs where they unleash their creativity in art and creative writing. The permanent projects of our Club till date have also been included in this issue.

If you want to touch the past TOUCH A ROCK
If you want to touch the present TOUCH A ROSE
If you want to touch the future TOUCH A LIFE
Lions Club touching lives everyday

This year, our main focus is on conservation of water - JAL HAI TO KAL HAI. Also, we will be doing various service activities like anaaj daan, health check up camps, visit to orphanage etc. So come and let's **CREATE A REMARKABLE EXPERIENCE!**

"Service to mankind is service to God."
We must serve with a smiling face and fulfill all our duties big or small with love & sincerity. The best preparation for tomorrow is doing our best today. This year we wish create a remarkable experience and make this world a better place not only for you and me but also for the lesser privileged section of the society.

Creating more out of life by serving the underprivileged and needy, taking active interest in the social and moral welfare of the society. Small acts when multiplied by hundreds of people can help in serving the society in a bigger way. There is incredible value in being of service to others.

Good Thoughts Everyday

Have you ever thought about something
Like you wake up after a dream every morning
Eat breakfast and get ready for the day
To learn and work for earning bread or bills to pay

Some have goals in life
And some just go with the flow
Some problems are dealt with the wife
And some just enjoy the show

But each day is a gift from God
And you just forget to thank him
For some of you may think its too odd
Like why the sun sets and it starts to dim

Make your inner voice stronger
To be a better human for each day longer
And then one day will come
When you'll be saint with happiness on the run

Hitika Mehra

All her life, she waited
for a bright light to shine upon her,
To show her the paths
and guide the route of life,
Everything failed,
no matter how hard she tried,
One day she realised
no light can be brighter than her own self,
Today she is brightest among all,
shining like a star even in the sun shine,
She finally started believing in herself.

Jal hai to kal hai

Our Project for the year wherein we plan to recharge the existing Borewells by Harvesting the Rainwater.

We have identified areas in Talasari, Vikramgarh, Wada and adjoining areas where this model of borewell recharge has been successfully implemented. By recharging the Borewells which have run dry due to depletion of ground water we hope to reduce at least some of the water shortage difficulties faced by the villagers.

जल है तो कल है

For Donations for the project please contact PST.
